OBJECTIVE

I want to start my MERN stack developer career with a focus on frontend and backend skills. I want to upskills and become more productive while participating in designing, planning & developing complex applications.

SKILLS

- React.js
- JavaScript
- Html & CSS
- Material-UI
- Responsive Design
- Git & GitHub

PROJECT EXPERIENCE

Web Development (student)

I developed three study projects in modern technologies while studying in B-Tech.
All projects were completed under deadlines.
I showed great productivity and helped other students in their assignments.

Expense-Management

It is a management web application for managing house expenses on a daily basis.

https://github.com/asgaransari19/Expanse-Management

React.js, CSS3, HTML5, JavaScript, Material UI

Assessment Web Application

It is like a quiz application for online exam. which having
